

Acknowledgements

The Standard Stroll Curriculum Guide was originally created by Alameda County Safe Routes to Schools Education Coordinator Susan Silber, and modified for use for the Sonoma County Bicycle Coalition’s Safe Routes to School program.

The Alameda Safe Routes staff would like to thank the following people for their hard work and effort that they gave toward this important project: Melanie Grubman (former Safe Routes Education Coordinator responsible for the curriculum guide’s conception and beginning stages), Brooke Kuhn (former Alameda County of Public Health Nutrition Specialist), Nora Cody (Safe Routes to Schools Director), Karla Perez-Cordero (Safe Routes School Site Coordinator), Teri Hudson (Sobrante Park Elementary School teacher), Brett Wilson (Ascend Elementary School teacher).

Many thanks to the Alameda County teachers who pilot tested lesson plans: Shanna Joy, Angela Luk, Cheri Hinkley, René Theriault, Sally Davis, Diane Meltzer, Kathy Hallock, Jamie Chao, Tracey Iglehart, Regina Maradiegue, Brett Wilson and Mark Gill (who pilot tested five lessons!)

In addition to original lessons created by Alameda County Safe Routes to Schools, the curriculum also utilizes lessons from the following Safe Routes to Schools programs: Nebraska Department of Roads; Marin County Bicycle Coalition; Portland Office of Transportation; and Washington State Department of Transportation. Lesson plans from the following Curriculum Guides were also used: Green Teacher’s *“Teaching About Climate Change: Cool Schools Tackle Global Warming”* and the Strategic Energy Innovations *“Protect Your Climate.”* (supported by Bay Area Air Quality Management District). Extra handouts were taken from the following: Children’s Health Education Center/Safe Kids (sponsored by Kohl’s) and TIME for Kids.

Lastly, we’d like to give our many thanks to our generous funders: In Sonoma County, Safe Routes to School is funded in part with a grant from Measure M, Sonoma County’s ¼ cent transportation tax, administered by the Sonoma County Transportation Authority. Safe Routes to School is funded in Alameda County in part with a major grant from Measure B -- Alameda County’s half cent transportation sales tax (administered by ACTIA), Kaiser Permanente, the William and Flora Hewlett Foundation, the Laurel Foundation and Caltrans.

Funded in part with a major grant from Measure B -- Alameda County’s half cent transportation sales tax, administered by ACTIA, and Measure M
