# Comments

- Moods were definitely lifted and smiles were all around. My kids both said 'we should do this more often, it feels good to walk before school'. We will definitely be walking and soon biking more to school.
- "I absolutely loved it! How bad would it be for the city to do that Thursdays and take over D street the way we did?!"
- I was so happy ALL day. I saw countless birds and new blossoming trees... I adore this town and it felt so good to be riding through it instead of driving getting to wave hello to dozens of people. Yay for community!"
- This was perfection from my vantage point! Kids made it on time NO PROBLEM and the mass train of people made me feel like we were birds flying to school. I am filled with so much hope and love. Thank you ALL for making this possible!! See you all on Thursday the 28th?! (After our spring break next week) Same time same places?! ;-)
